Sponsorship is a great way to support the Bay Lions FSC while gaining visibility in the youth sports community. Sponsorship is also a crucial financial piece which has allowed the club to grow from just one team and one coach in its inaugural year, to 6 teams and 5 coaches in only 4 seasons! The club has many different packages available. They are posted on our website and we encourage you to share them with others. Please reach out to Coach Simon if you have any interest in becoming a sponsor this season.

Covid Update: It is hard to believe that we find ourselves once again in the middle of a Covid surge here in South Florida. This is a good reminder to all to do our part to slow the spread and keep our soccer family as safe as possible. Please do not send your child to practice if they are exhibiting any Covid-like symptoms or if they have been in close contact with someone known to have Covid. Please refer to the [CDC.gov](https://www.cdc.gov) web page for quarantining guidelines and for knowing when it is safe for your child to return to practice as we will be adhering to these guidelines. Please note that CDC quarantining guidelines are slightly different if your child is vaccinated. Also we please ask that you keep your coaching staff and team in the loop if your child has tested positive or if you have any reason to believe that a team member may be considered a close contact. And finally, please have your child bring a mask to practice in the event we need to gather everyone close together for an extended period of time such as when the lightening alarm goes off and we are seated under the gazebo for greater than 15 minutes. We thank you in advance for your cooperation.

Giving Back:

As many of you already know, this club prides itself on teaching our youth the importance of giving back to the community. Throughout the season we take on an important cause to educate not only our players and families, but to also find a way to be active in local, national and international charities. For the past 3 seasons we have adopted a Colombian soccer organization called Foundation Heroes Futbol Club. The organization is run by a close family friend of the Henao family. Their mission is to strengthen ties between family and community, to improve the quality of life of the children and to prepare them not just to be athletes, but also to be productive members of their respective societies. All of the youth they serve are in much less fortunate situations but they all share a great love for soccer. We have helped them in their mission by collecting new and used soccer gear that we no longer need and send it to Columbia a few times per year. Items we collect include soccer cleats, shin guards, soccer socks, jerseys, balls and bags. Please keep this organization in mind when cleaning out your child's closet and simply bring the items to any of the coaches. They will ship items to Columbia throughout the season. Thanks for helping us to teach our kids that some things are bigger than soccer!

Kudos Corner: The expansion of the Bay Lions FSC club has been possible in part because of the great support we receive from the parents. If you would like to volunteer in any capacity, please reach out to Donna (Dalton U13, Dillon U12).
